## WORK EXPERIENCE

### Ai And Cloud Intern, Edunet Foundation( [Certificate](#) )

July 2024 – August 2024

- Learned AI/ML fundamentals and applied them in a practical project.
- Developed a chatbot using IBM Cloud and Watson Assistant.
- Integrated chatbot with a Django app [ [LINK](#) ] to enhance user interaction.
- Deployed the solution on IBM Cloud for scalability and reliability.
- Strengthened skills in AI, cloud computing, and web development.

## PROJECTS

### E-Commerce Platform [Tech Used: Python, Django, Django channels, Bootstrap, Google\_Authentication] [\[LINK\]](#)

- **Easy Login:** Google OAuth and secure password recovery for seamless access.
- **Wide Product Range:** Organized categories, detailed pages, and related suggestions.
- **Executive View:** Can search for orders using their order ID and view all information related to that.
- **Quick Search & Filters:** Find products easily by category, name, or description.
- **Live Support:** Real-time chat with customer executives via Django Channels.
- **Responsive Design:** Optimized for mobile, tablet, and desktop.

### Developers Group Chat App [Tech Used: Python, Django, Bootstrap, Google\_Authentication] [\[ LINK \]](#)

- **Developed a group chat app** for developers to join or create tech-specific discussion groups.
- **Implemented dual authentication** methods: email/password, Google, and GitHub authentication.
- **Defined user roles** for room management, allowing creators to edit/delete rooms.
- **Enabled message control:** users can edit/delete their own messages.
- **Facilitated tech-specific discussions** in a collaborative environment.

### VideoGram – Video Calling App With Real Time Chat [Tech Used: Python, Django, Bootstrap, ZegoCloud Api's] [\[ LINK \]](#)

- **Developed a video calling app** with integrated live chat functionality.
- **Enabled room creation** for users to host video calls and share room links.
- **Facilitated real-time communication** through video and live chat.
- **Simplified user interaction** by allowing easy room sharing and joining.

### ChatGram – Real Time Chat App [Tech Used: Python, Django, Bootstrap, Django Channels] [\[Demo video\]](#)

- **Developed a real-time chat app** using Django Channels.
- **Enabled instant messaging** between users with real-time updates.
- **Facilitated seamless user communication** in a live chat environment.

## EDUCATION

### Dr. A.P.J. Abdul Kalam Technical University

2022-25

- **B.Tech** (Computer Science and Engineering)GPA:

8.36

### Board Of Technical Education Uttar Pradesh

2018-20

- **Diploma**( Mechanical)

Percentage:85.6%

### St. Anjani's Public School , CBSE

2018

- **Intermediate** (Science)

Percentage:75%

## TECHNICAL SKILLS

**Technology/Frameworks:** Django, Django Rest Framework, Django Channels

**Languages:** Python, JavaScript, HTML, CSS

**Cloud/Database:** MySQL, SQLite

**Developer Tools:** VS Code, PyCharm

**Others:** Understanding of DBMS, Operating System and Design and Analysis of Algorithm

## ACHIEVEMENTS

- Achieved proficiency in Python programming language and the Django web framework through a comprehensive course on Udemy, mastering essential skills in web development, backend programming, and database management
- 100+ Problems Solved on leetcode.
